

Homelab SBESP Program Schedule

- 1 VEU and SBESP eligibility criteria apply.
- 2 Prices quoted are GST exclusive and are calculated on a selected sample product. Other product's VEECs and Vouchers may vary slightly. Use the product calculator checklist below to calculate the return on a specific product.
- 3 Voucher cap applies. Maximum a business can receive, from all activities current and claimed in the past is 50 Vouchers (\$2000).
- 4 There is no cap on VEECs
- 5 Your total benefit is the sum of VEU and (capped) SBESP Rebates

Activity	To Be Removed	To Be Installed	Metro					Regional				
			VEECs	Voucher Multiplier	SBESP Vouchers	VEEC Rebate	SBESP Rebate	VEECs	Voucher Multiplier	SBESP Vouchers	VEEC Rebate	SBESP Rebate
			a	b	c = a x b	a x \$40	c x \$40	a	b	c = a x b	a x \$40	c x \$40
Hot Water System												
1A	Inefficient electric water heater	Gas storage water heater(1A)	27	0.36	9.72	\$1,080	\$389	28	0.43	12.04	\$1,120	\$482
1B	Inefficient electric water heater	Gas instantaneous water heater	27	0.10	2.70	\$1,080	\$108	29	0.16	4.64	\$1,160	\$186
1C	Inefficient electric water heater	Electric boosted solar water heater	41	0.54	22.14	\$1,640	\$886	44	0.62	27.28	\$1,760	\$1,091
1D	Inefficient electric water heater	Heat pump heater	29	0.45	13.05	\$1,160	\$522	31	0.53	16.43	\$1,240	\$657
1F	Inefficient electric water heater	Gas boosted solar water heater	47	1.06	49.82	\$1,880	\$1,993	50	1.00	50.00	\$2,000	\$2,000
3B	Inefficient gas water heater	Gas boosted solar water heater	9	5.42	48.78	\$360	\$1,951	9	5.44	48.96	\$360	\$1,958
Heating and Cooling												
10A(i)	Hard-wired electric room heater	Air to air heat pump	25.1	1.65	41.42	\$1,004	\$1,657	26.6	1.79	47.61	\$1,064	\$1,904
10A(ii)	Room air-conditioner (air to air heat pump) or other room heater	Air to air heat pump	1.9	26.05	49.50	\$76	\$1,980	2	25.00	50.00	\$80	\$2,000
10A(iii)	Plug in electric heating or wood fired heater	Air to air heat pump	10.6	4.73	50.00	\$424	\$2,000	11	4.47	49.17	\$440	\$1,967
10A(iv)	Refrigerative air conditioner (non-ducted) and a hard-wired electric room heater	Air to air heat pump	30.2	1.20	36.24	\$1,208	\$1,450	30	1.31	39.30	\$1,200	\$1,572
10A(v)	Refrigerative air conditioner (non-ducted) and plug in electric room heater	Air to air heat pump	12.7	3.93	49.91	\$508	\$1,996	13.5	3.71	50.00	\$540	\$2,000
10A(vi)	Refrigerative air conditioner (non-ducted) and a gas room heater	Air to air heat pump	2.5	19.85	49.63	\$100	\$1,985	1.9	26.11	49.61	\$76	\$1,984

Activity	To Be Removed	To Be Installed	Metro					Regional				
			VEECs	Voucher Multiplier	SBESP Vouchers	VEEC Rebate	SBESP Rebate	VEECs	Voucher Multiplier	SBESP Vouchers	VEEC Rebate	SBESP Rebate
			a	b	c = a x b	a x \$40	c x \$40	a	b	c = a x b	a x \$40	c x \$40
Refrigerated Display Cabinets, Fridges and Freezers												
32A (i)	n/a	An efficient refrigerated display cabinet listed on the ESC's product register	10.8	4.00	43.20	\$432	\$1,728	11.8	4.14	48.85	\$472	\$1,954
32A (ii)			25.1	1.99	49.95	\$1,004	\$1,998	26.6	1.88	50.00	\$1,064	\$2,000
32A (iii)			39.6	1.26	49.90	\$1,584	\$1,996	42	1.19	49.98	\$1,680	\$1,999
22A	n/a	Single door refrigerator	1	20.20	20.20	\$40	\$808	1.1	21.41	23.55	\$44	\$942
22B		Two door refrigerator	1	24.50	24.50	\$40	\$980	1	27.50	27.50	\$40	\$1,100
22C		A chest freezer	1	20.30	20.30	\$40	\$812	1	22.80	22.80	\$40	\$912
22D		An upright freezer	1.5	12.90	19.35	\$60	\$774	1.6	13.60	21.76	\$64	\$870
Motors												
33A	n/a	Fan motor in a display cabinet commercial freezer or cool room	2	1.39	2.78	\$80	\$111	2	1.51	3.02	\$80	\$121
33B	n/a	Fan motor in a ducted fan or partition fan	13	0.63	8.19	\$520	\$328	14	0.72	10.08	\$560	\$403
31A	n/a	High Efficient MEPS listed motor installation	1	5.38	5.38	\$40	\$215	1	6.13	6.13	\$40	\$245
Other												
36	n/a	Water efficient pre-rinse spray valves	5	0.27	1.35	\$200	\$54	6	0.19	1.12	\$240	\$45

To check if a product is approved and the amount of benefit you can receive

1. Go to <https://www.veu-registry.vic.gov.au/Public/Calculator/VEECCalculator.aspx>

2. Select activity date = current or past date

3. Select Sector = Business

4. Select activity from pull down list (the activity number is in the first column of the table above)

Note: The screen will refresh with additional input fields specific for each activity.

5. Fill in all required fields.

6. For activities with scenarios, the scenario is described in second column of the table above)

Note: Product Brand and Product Model fields contain list of approved products for the activity, so if you can't find your specific product on the list it means it is not approved and you can not claim rebate on it.

6. Press Calculate button at the boottom of the page

7. The screen will refresh and will have a number of "Eligible VEECs" (certificates)

8. Use the formulas from table header to calculate the number of Vouchers and the amount of benefit (Rebate) you will receive for installing the product.
